LESSON CONTINUITY – KEY FOR PROGRESSION AND SAFETY!

At the Swim Factory, our learn-to-swim programs run all year-round allowing for continuity of swimmers' growth, development and skill acquisition.

At this time of year, children are generally not swimming at school, in their backyard pools or at the beach. Not being in the water outside of lessons at this time of year is one of the biggest reasons why swimming lessons should continue!

Often, we'll see children struggle to maintain skills over a long break and they can become frustrated by having to re-learn skills they thought they'd mastered.

Fortunately, we're here to help with indoor, heated pools so learning doesn't have to stop!

Remember, swimming is an asset for life and learning to swim well is your child's best survival skill.

KEEP THOSE ACHIEVEMENTS COMING!

We're incredibly proud of all our swimmers at the Swim Factory and have seen some truly wonderful achievements recently!

A big congratulations to all of our April, 2021 Achievers:
